

Product Specification Sheet

Retractable Kaleidoscope Ultra-Mini Mouse

Part #: AMU28AP

Product Description:

This ultra mini kaleidoscope mouse is the perfect solution for the mobile warrior who needs to save space when using an external mouse. Cycling through seven colors as it moves, the Targus Kaleidoscope Mouse will keep your workspace bright. The "Screen Scroller Button" will allow you to scroll up or down. The mouse allows you to browse websites and windows easily. The Ultra-Mini Retractable Optical Mouse comes standard with a USB connection (USB 1.1) that will allow true plug and play connection with any laptop or desktop USB port. In addition to offering accurate optical technology and excellent precision, this ultra-mini mouse is designed for ambidextrous use.

Product Features and Specifications:

- Mouse rotates through 7 colours of the rainbow and brightens up workspace.
- Adjusts to desired length, and fully retracts for easy travel and storage.
- Compact design and retractable USB cable, ideal for travel.
- Standard resolution for good cursor control.
- No software or power adapter needed.
