

Product Specification Sheet

Targus Chill Hub Part #: AWE12AP

Product Description:

The Targus Notebook Cooling Chill Hub is designed to help maximize laptop performance by keeping the laptop cool during use. Two fans generate cool air to help prevent the laptop from overheating. An integrated 4-port USB 2.0 hub provides added connectivity for peripherals such as mice, memory drives, keyboards, cameras, printers and other USB powered devices. Perfect for use in the office or on the road.

Product Features and Specifications:

- 4-port USB 2.0 hub to support additional USB peripherals.
- Two fans help maximize laptop performance and help prevent overheating. Ideal for the latest Dual Core processors.
- Protects lap and workspace surfaces from laptop heat.
- No software or power adapter needed.
