

Product Specification Sheet

Internet Phone with 3-port USB 2.0 Hub

Part #: BAP0009

Product Description:

Many Internet chat programs now support video and audio communications. Since USB port resources have also become more valuable, Targus has created this unique Internet phone with USB hubs to fulfill both the needs of Internet-chat applications and USB expansion. This product provides 3 USB 2.0 ports with microphone, headphone and speaker jacks. A premium quality headset with detachable mic is bundled with this product. User can enjoy multiple USB expansions, as well as the freedom of Internet chat using this product by a single connection with their computer via USB. The unique one-button switching between speaker and headset further protects the privacy of chats and simplifies the switching process.
