

## Product Specification Sheet

### Mobile Conference USB Webcam and Stereo Headset Solution Pack Part #: BAP0011

#### Product Description:

BAP0011 is a perfect chat and see solution for an on-the-go business professional to establish a video conference wherever an Internet connection is available. It works seamlessly with Skype, Windows Live! Messenger and Yahoo; the webcam features a 1.3 Mega Pixels sensor with stunning clarity which captures everyone in the frame with its 72o wide angle lens. The headset, apart from voice chat, Unlike conventional voice grade headsets, a pair of high quality drivers has also been selected for the best musical experience with both your iPod and Windows Media Player. The detachable microphone is multidirectional and adjustable for best reception.
